

Exam 2 - RMI

ID	Author	Date
2017303024	Zhang Chunxu	Sat 28 Dec 2019

Key point

1. used **strategy design pattern** to reduce maintenance difficulty, and clear the code.
2. use **Response** generic class to provide error informations.

How to run

Run

```
java -jar RmiServer.jar # your server will run on localhost:1099
java -jar Client.jar localhost 1099
```
